The Female Reproductive System
Product Code: FRSYP (PA, SK, RL)

The Endocrine System
Product Code: ENDOP (PA, SK, RL)

The Male Reproductive System
Product Code: MRSYP (PA, SK, RL, RP)

The Urinary Tract
Product Code: URINP (PA, SK, RL)

Head & Neck
Product Code: HEADP (PA, SK, RL)

The Human Skull
Product Code: HSKUP (PA, SK, RL, RP)

Anatomy of the Brain
Product Code: ABRAP (PA, SK, RL, RP)

The Vertebral Column
Product Code: VERTP (PA, SK, RL, RP)

The Spinal Nerves
Product Code: SPINP (PA, SK, RL, RP)

implox Anatomical Models

Shoulder Joint
This high quality model of a functional shoulder joint provides a graphic demonstration of the anatomy and mechanics of the shoulder.

Product Code: A80

Shoulder Joint with Rotator Cuff
This five part shoulder joint model consists of the upper half of the humerus as well as the clavicle and scapula.

Product Code: A880

Deluxe Shoulder Joint
This deluxe shoulder joint consists of shoulder blade, collar bone and upper arm stump.

Product Code: A80-1

Mini Shoulder Joint with Cross Section
This mini shoulder joint has been reduced to half its natural size, but has kept all of the functionality of larger shoulder joint models.

Product Code: A86-1

Deluxe Hip Joint
This deluxe hip joint consists of a thigh stump and hip-bone.

Product Code: A81-1

Mini Hip Joint with Cross-section
This mini hip joint has been reduced to half its natural size, but has kept all of the functionality of larger hip joint models.

Product Code: A84-1
implox Anatomical Models

Femoral Fracture and Hip Osteoarthritis
This model of an elderly hip joint has been developed to provide patients with understandable information.
Product Code: A88

Mini Elbow Joint with Cross-section
This mini elbow joint has been reduced to half its natural size, but has kept all of the functionality of larger elbow joint models.
Product Code: A87-1

Elbow Joint
This functional model of an elbow joint provides a graphic demonstration of the anatomy and mechanics of the elbow.
Product Code: A83

Deluxe Elbow Joint
This deluxe elbow joint consists of a stump of the upper arm, ulna and radius.
Product Code: A83-1

Sectional Knee Joint
This three part knee joint model can be used to demonstrate various disorders of the human knee joint (articulatio genus) and their respective therapies in a graphic way.
Product Code: A89

Knee Joint
This functional model of a knee joint provides a graphic demonstration of the anatomy and mechanics of the knee.
Product Code: A82
implox Anatomical Models

Deluxe Knee Joint
This deluxe knee joint consists of a thigh stump, shinbone stump and calf bone stump, menisci and patella.

Product Code: A83-1

Mini Knee Joint with Cross-section
This mini shoulder joint has been reduced to half its natural size, but has kept all of the functionality of larger shoulder joint models.

Product Code: A85-1

Classic Heart with Bypass
Highly detailed 3/4 sized 2-part heart at a price you will love. This model is invaluable for explaining the treatment of coronary heart disease.

Product Code: G05

Heart with Bypass
This model depicts a venal bypass from the ramus postero-lateralis of the right coronary artery, to the ramus interventricularis anterior of the left coronary artery.

Product Code: G06

Heart Model
This cost effective model shows the structures of the heart and enables easy explanations of both condition and treatment.

Product Code: G08

Heart Model
The front heart wall is removable so that the internal structure can be clearly seen.

Product Code: G10
implox Anatomical Models

**Heart Model**

Two times normal size, this heart model allows easy identification of all structures and is a perfect aid for lessons in big classrooms or lecture halls.

Product Code: G12

**Heart, Oesophagus & Trachea**

Unique model showing the anatomy of the human heart in great detail plus a removable section of the oesophagus and ascending aorta, along with the trachea down to the bifurcation.

Product Code: G13

**Giant Heart with Esophagus and Trachea Model**

This 2-times life-size giant heart allows for very easy identification of all structures and is a perfect aid for lessons in big classrooms or lecture halls.

Product Code: SB41433U

**Lung Model with Larynx**

Life sized model of the human heart and lungs.

Product Code: VC243

**Lung Model with Larynx**

This is a first class, life size model of the human heart and lungs.

Product Code: G15

**Standard Skeleton**

We believe this to be the most popular and affordable full-size skeleton on the Australian market!

Product Code: A10
implox Anatomical Models

Skeleton with Muscle Markings
This full-sized skeleton shows the interaction between bones and muscles through painted muscle origins and insertions.

Product Code: A11

Super Skeleton
One of the most complete, full-featured skeletons available.

Product Code: A13

Skeleton with Ligaments
This skeleton provides representations of the structural interaction between bones and ligaments.

Product Code: A12
