

Sakamoto Aged Experience Simulation Suit

implox Pty.
Ltd.
HEALTHCARE

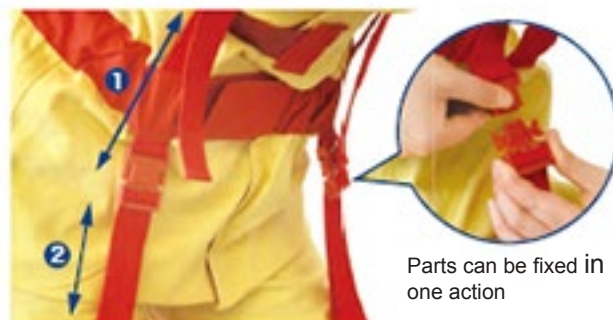

1. Fit-on

3 minutes to don suit. Worn like overalls, allows students to experience restrictions in physical activity associated with age.

2. Adjustment

1. The angle of hip flexion is adjusted
2. The motion ranges of parts of the body can be adjusted.

The hip angle and motion ranges of various parts of the body can be adjusted with belts. Age associated changes, paralysis on one side of the body and hemiplegia can also be experienced.

3. Restriction Belt

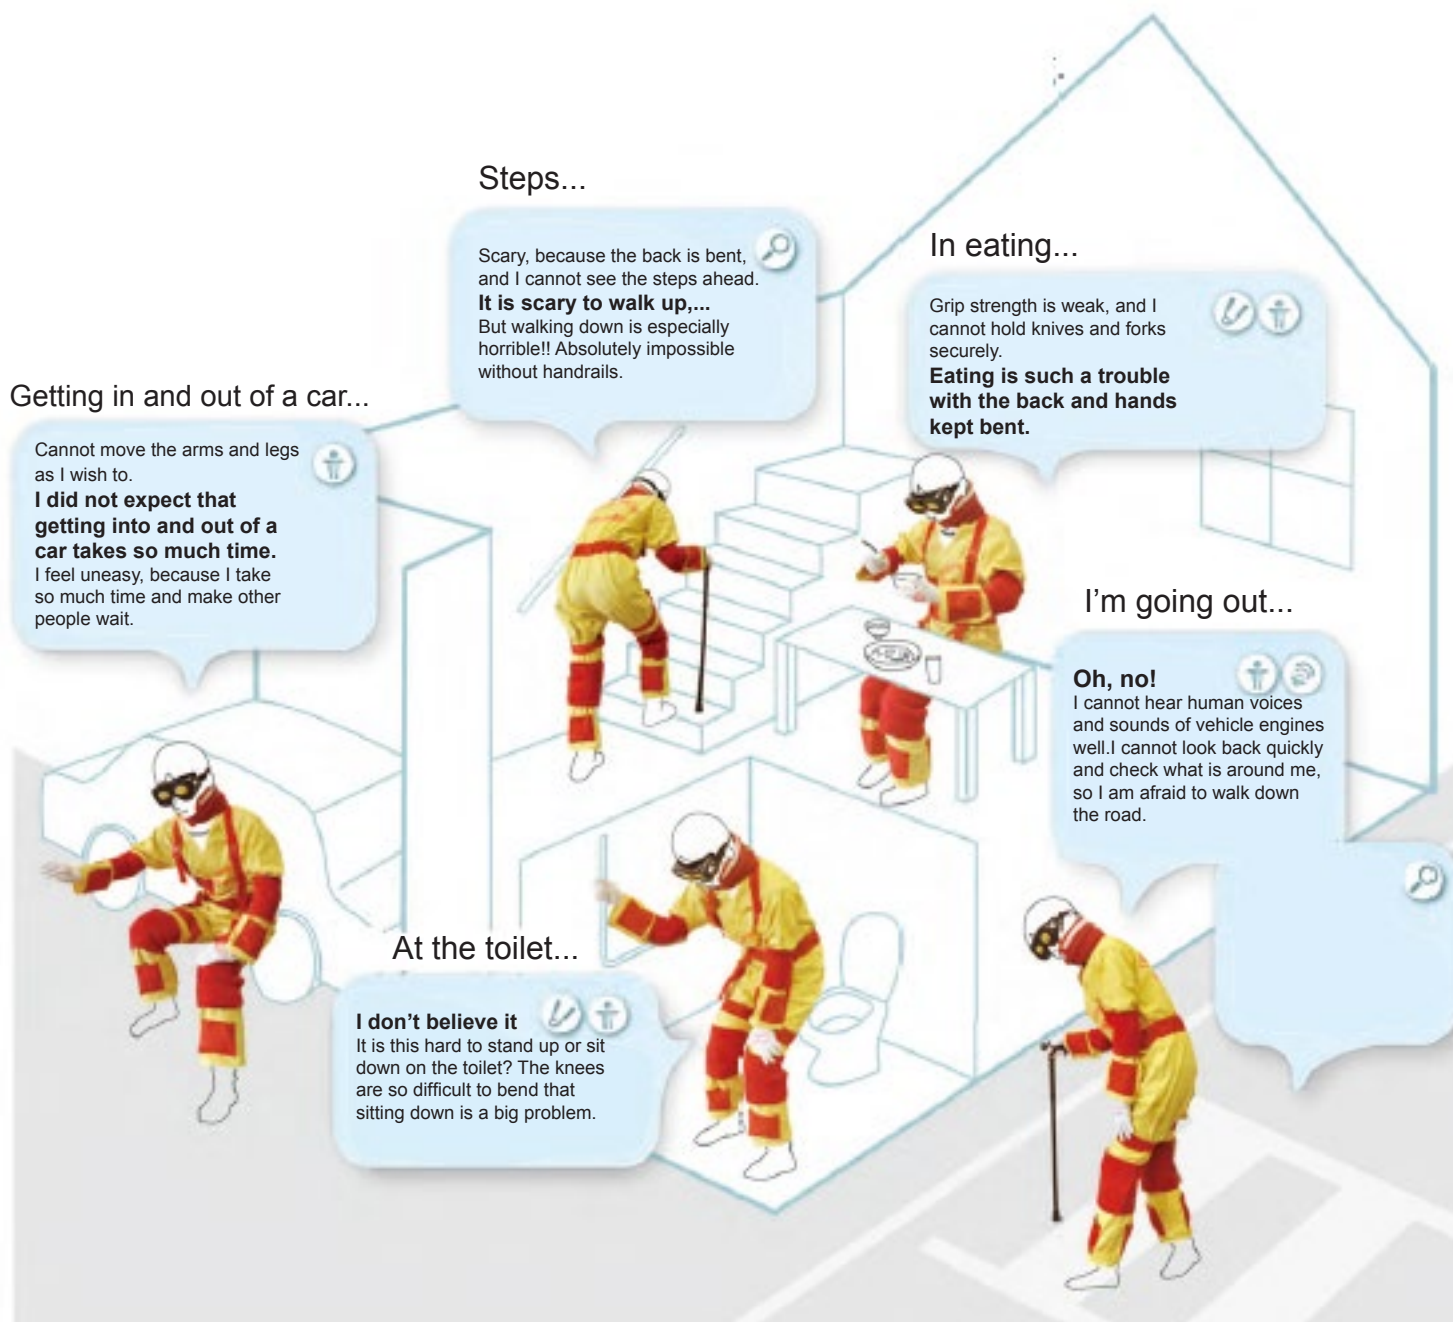

Neck restriction belt Elbow restriction belt Knee restriction belt

Newly developed neck/elbow/knee control belts restrict motion ranges. The wearer can experience the fear of not being able to promptly cope with danger.
