Precision for health

Multifunctional & Wheelchair Scales

Because the hand-rail is part of the weightsensitive area, measurements are absolutely sure even if the patient supports himself on it.

The display can be rotated in every direction.

seca 644

Multifunctional handrail scales

Equipped with an extremely low-level, easy-access platform, a stable handrail, and high weight-bearing capacity, this multifunctional scale ensures safe and comfortable weighing of heavy patients. The integrated handrail provides the patient with support throughout the weighing process. Thanks to the generous platform, a chair can be placed on the scales for patients who prefer to sit. The pre-TARE function with three memory cells automatically deducts a stored weight (such as a chair) to determine net weight. Moreover, the seca 644 is made mobile by two rubber wheels and a power supply provided by rechargeable batteries or power adapter. When the scale is connected to a printer, the time of weighing and the patient's weight are automatically recorded and printed by the time module.

- Capacity: 300 kg / 660 lbs
- Graduation: 100 g / 0.2 lbs
- Functions: TARE, pre-TARE, auto-HOLD, BMI, kg/lbs switch-over, damping, automatic switch-off
- Optional: measuring rod seca 223, RS232 interface seca 460

Accessories

The optional measuring rod permits weighing and measuring in one step.

seca 223

Telescopic measuring rod for handrail scales

This easy-to-fit measuring rod (fittings included) converts the handrail scales seca 644 into a real all-round talent. The determined height can be entered directly into the control unit of the seca 644 so that all relevant data is captured and used to determine the BMI.

- Measuring range: 6–230 cm, 6–230 cm / 2–90"
- Graduation: 1 mm, 1 mm / 1/8"

seca added value

A fold-out seat with integrated damping system?
There is such a thing – from seca of course. Our wireless multifunctional scales seca 684 have a stop barrier for wheelchairs and another detail that adds to overall safety. A spring in the mechanism for the integrated seat keeps the seat securely in place until it is released for use.

optimized

Patient can stand or sit when being weighed.

seca 684

Wireless multifunctional scales

The patient can be safely and accurately weighed while standing or seated or in a wheelchair. No conversion is required. The stable handrail supports the standing patient, the integrated fold-down seat provides comfort for the seated patient, and the large platform (76 x 82 cm) accommodates a patient in a wheelchair. The weight of the wheelchair or walker is simply deducted with use of the Pre-TARE function. Special attention has been given to making the scales easy-access and safe, with a stop barrier provided for the front wheels of the wheelchair. Furthermore, the seca 684 is equipped with the new seca 360° wireless technology, which wirelessly transmits all measurements to a seca wireless printer or to seca software on your PC. Additional details: easy-to-read swiveling display can be turned toward patient or caregiver, the practical HOLD function shows the weighing result after the patient has left the platform, the damping function ensures precise results, the non-slip rubber coating and handrail guarantee a firm foothold and integrated transport castors make the scale mobile. The access ramp seca 470 is included in the supply schedule.

- Capacity: 360 kg / 800 lbs
- Graduation: 100 g / 0.2 lbs
- Functions: TARE, pre-TARE, HOLD, auto-HOLD, BMI, auto-CLEAR, kg/lbs switch-over, damping, SEND/PRINT

The rotating display can be oriented towards the patient or medical personnel.

System compatible with:

360° wireless printer advanced seca 466
360° wireless printer seca 465
360° wireless USB adapter seca 456
software seca analytics 105 and
seca emr flash 101

Wireless wheelchair scales
with handrail and transport castors

*The scales can
be folded for easy
transport.*

*Integrated ramp
folds up for trouble-
free transport.*

Stable, functional and mobile: thanks to its large platform and sturdy handrail, the seca 676 is extremely versatile. Patients can be weighed while sitting in a wheelchair or on a chair. The handrail provides valuable support for people who are frail or can walk only with great difficulty. Its high load capacity makes the seca 676 ideal for weighing very heavy patients. After use the scale can be folded together to save space. The sturdy locking device between rail and platform ensures that the seca 676 stands safely even when folded. The handrail also serves as handle when the scale is folded, allowing the scale to be moved around or stowed away effortlessly and quickly on its transport castors. Weighing is simple and user-friendly with the clearly designed, operable display at hip level, additional functions of TARE, auto-HOLD, BMI and the SEND key to transmit measurements wirelessly to a seca wireless printer or the PC.

- Capacity: 360 kg / 800 lbs
- Graduation: 100 g / 0.2 lbs
- Functions: TARE, pre-TARE, HOLD, auto-HOLD, BMI, auto-CLEAR, kg/lbs switch-over, damping, SEND/PRINT

System compatible with:

360° wireless printer advanced seca 466
360° wireless printer seca 465

seca added value

A handrail for support that doesn't falsify the measurement? There is such a thing – from seca of course. The handrail on our transportable wireless wheelchair scales seca 676 gives the patient a feeling of security and, thanks to its special technology, delivers accurate measurements even when the patient leans on or holds onto the handrail.

seca 664

Electronic wheelchair scales

With its high capacity of 360 kg, this scale makes it easy to weigh even heavy patients. Easy access is assured by its extremely low platform and the self-lowering ramps. The secure side rails give additional safety. An integrated pre-TARE function determines in seconds the net weight of the patient by utilizing internal weight memory. The swiveling LCD with large letters is easy to read both for the patient and for the caregiver. The seca 664 can be folded up in no time and can be transported anywhere, thanks to its roller castors.

The seca 664 simply folds up and moves easily across the floor on castors.

- Capacity: 360 kg / 800 lbs
- Graduation: 100 g / 0.2 lbs
- Functions: TARE, pre-TARE, auto-HOLD, BMI, kg/lbs switch-over, damping, automatic switch-off
- Optional: RS232 interface seca 460

With its transport castors and steering castor, the seca 656 can be maneuvered easily.

The integrated fold-away ramp locks into place for trouble-free transport.

The free-standing display guarantees comfortable read-out of measurements.

seca 656

Electronic platform scales
with innovative memory function

The especially large platform of the seca 656 makes it possible to weigh patients on all commonly used stretchers. Patients can also be weighed while sitting in wheelchairs or on chairs. A unique characteristic of the seca 656 is the new memory function. This practical feature helps to lighten the workload especially in the emergency unit: first the total weight of the patient and stretcher or wheelchair is determined. The stretcher or wheelchair is then weighed separately and the net weight of the patient appears automatically on the display. A cable remote display with easy-to-read LCD figures is included in delivery. This display is operated intuitively and is equipped with many additional functions. With the pre-TARE function, the extra weight of a stretcher or wheelchair can be deducted directly from the total weight during the weighing process. With the BMI function, the nutritional condition of the patient can be determined. With the practical castors and integrated handles, the seca 656 is also transportable for use in various locations.

- Capacity: 360 kg / 800 lbs
- Graduation: 100 g / 0.2 lbs
- Functions: TARE, pre-TARE, auto-HOLD, BMI, kg/lbs switch-over, damping
- Optional: stand for cable remote display seca 472, RS232 interface seca 460

A ramp for easy roll-on of wheelchairs is included in delivery.

seca 674

Electronic platform scales

This electrically-operated, generously-sized wheelchair/platform scale is multifunctional. It weighs patients in care, especially heavy patients, persons in wheelchairs and seated patients with circulatory trouble, even during dialysis. The flexible cable remote display can be placed anywhere (on a desk or table) for convenient read-out and operation of the controls. A wall mounting is also provided. Transport castors and a handle make the seca 674 mobile.

- Capacity: 360 kg / 800 lbs
- Graduation: 100 g / 0.2 lbs
- Functions: TARE, pre-TARE, auto-HOLD, BMI, kg/lbs switch-over, damping
- Optional: stand for cable remote display seca 472, second ramp seca 470, RS232 interface seca 460

Accessories

seca 472

Stand for cable remote displays of seca scales

The seca 472 stand is the stable solution for cable remote displays of seca scales seca 634, seca 656 and seca 674. The sturdy construction with non-slip steel feet can be positioned everywhere quickly and securely. The display element can easily be attached to the stand by means of a stable bracket.

Accessories

seca 470

Second ramp for seca 674

Optional accessory: this ramp for platform scales seca 674 makes it even easier to get onto the scales with a wheelchair from both sides.

Thanks to the ramp, a wheelchair rolls easily and comfortably onto the platform.

Chair scales by seca

Competence takes the chair.

How can you gently and carefully weigh bedridden patients or people who are unsteady on their feet? The best choice is a seca chair scale, which you can take directly to the patient. That saves you – and nursing staff – from unnecessary steps. And with the scale's wireless function, transmission of data to a printer or a PC is quick and easy.

optimized

seca 954

Wireless chair scales to weigh seated patients

The ergonomically shaped handles let you push or pull the chair scale in any direction.

To make sitting down and standing up easier, the arm and footrests can be folded away.

The large footrests can be folded completely out of the way so that the patient can safely and comfortably take a seat.

Care and comfort were kept in mind when designing the stable model with a circular steel tube frame. The comfortable seat provides a safe position while the swiveling armrests and adjustable footrests make the chair scale more user-friendly. The locking rear wheels ensure that it is safe to sit down and stand up at all times. The positioning of the large LCD display unit behind the chair permits intuitive operation of functions TARE, HOLD and BMI. At the press of a button, the seca 360° wireless technology transmits measurements to a seca wireless printer or a PC. This mobile chair scale, which can be operated by rechargeable battery or electricity, provides enormous help in rehab, orthopedics, dialysis, nursing homes and pediatrics, allowing small children who cannot yet stand on their own to be weighed while seated. The practical pouch seca 471 attached to the scale frame stores the power adapter.

- Capacity: 300 kg / 660 lbs
- Graduation: 50 g < 150 kg > 100 g / 0.1 lbs < 330 lbs > 0.2 lbs
- Functions: TARE, pre-TARE, HOLD, auto-HOLD, BMI, auto-CLEAR, kg/lbs switch-over, damping, automatic switch-off, SEND/PRINT

System compatible with:

360° wireless printer advanced seca 466
360° wireless printer seca 465
360° wireless USB adapter seca 456
software seca analytics 105 and
seca emr flash 101

The ergonomic handle makes the scale easier to push.

seca 952

Chair scales for weighing while seated

To make sitting down and standing up easier, the armrests and footrests fold up out of the way.

With a capacity of 200 kg and a graduation of 100 grams, the seca 952 fulfills all basic medical standards. Added to that are the typical seca advantages such as fold-up armrests and footrests, secure wheel brakes, an ergonomically shaped seat and smooth-running rollers, which, together with the ergonomically shaped handle, make it very easy to push the chair scale. Of course the seca 952 is also equipped with the important TARE function which allows every newly added weight to be ascertained separately and the auto-HOLD function which lets medical personnel take care of the patient first and read out the results later.

- Capacity: 200 kg / 440 lbs
- Graduation: 100 g / 0.2 lbs
- Functions: TARE, auto-HOLD, kg/lbs switch-over automatic switch-off

The practically positioned display is easy to use.

Every gram counts when lying in bed.

Our bed and dialysis scales have been carefully tested in the past by specialists and intensive care consultants, in dialysis and burn units and found to be ideal. They are now also being used to an increasing extent in nursing homes. Because every gram is important in the case of immobile patients, precision is what counts. The bed and dialysis scales from seca with their alarm function can assist critical monitoring, for example, in the case of clinical procedures involving the loss of fluid or special fluid turnover, or simply in areas where patients can be weighed only in bed.

The patented lift mechanism permits placement of the load cells without any effort.

seca 984

Electronic bed and dialysis scales
with equipment trolley

Always in use: the seca 984 facilitates the easy, gentle and precise weighing of bedridden patients and is an indispensable aid in dialysis and intensive care. With the integrated lifts, four load cells can be placed easily and effortlessly under the castors of the bed. The previously determined weight of the bed is deducted using the pre-TARE function and the patient's precise weight is determined. In the event of a power failure, the scale stores all previously displayed values using rechargeable batteries. When not in use, the four bed lifts can be stored on the equipment trolley.

- Capacity: 500 kg / 1,100 lbs
- Graduation: 100 g < 200 kg > 200 g / 0.2 lbs < 440 lbs > 0.5 lbs
- Functions: TARE, pre-TARE, HOLD, BMI, limit value, kg/lbs switch-over, damping
